

Zuiver Afrikaans Water

newsletter February 2016

February 2016: two schools already provided with clean drinking water!

The donation by Stichting Groot Haspels was used to provide Mathibelane School en Ndlongolwane School with water filtering equipment.

The schools are in the poor KwaZulu Natal region where we have already carried out several projects. Including these schools, we have now provided more than 7000 children with clean drinking water!

But earlier projects mean that the total number is far higher. There couldn't be a better start to the new year.

Xindao donates sum raised by annual clearance sale.

Xindao held their annual clearance sale at the end of last year. 1500 euros, the sum raised, went to Pure African Water again this year. Fantastic! We'll be using all this money for the welfare of children in remote areas of Kwazulu Natal.

ZAW gift market 2015

We rounded off 2015 with a successful PAW gift market in België neighbourhood centre in Amsterdam. There was cheerful gipsy music by the Lanyok duo in the large hall. Artists Han van der Mijn, Dagmar Jaeger, Ellen de Ruiter and Liesbeth Optendrees donated their artworks, which visitors could buy to make lovely and unique gifts. Bever and Xindao, too, again donated articles this year. With the help of Wanda and George, neighbourhood centre volunteers, we raised over 1250 euros!

Who will be our next donor?

All the clean water projects we have carried out in South Africa in the last few years are independent and operational. This makes us proud.

Your money will be well spent! Please join us.
